

## Exhibit 8

### 2011 Basic Health HEDIS® Measures

For 2011, the CONTRACTOR shall report the following 2011 NCQA Data Submission Tool, including audited measures in accord with the current HEDIS® Technical Specifications and official corrections published by NCQA for Basic Health.

If Basic Health is not included in the CONTRACTOR'S product line that is reported as the "commercial" rate, then the product line which includes Basic Health must be counted, audited, and reported separately.

If Contractor does business in multiple states, HCA expects Washington state data.

All CONTRACTORS will report the following HEDIS® measures for contract year 2011 (calendar year 2011) using 2010 data:

1. Comprehensive diabetic care Hybrid *method only*
2. Follow-up after hospitalization for mental illness (30 day follow-up only)
3. Cholesterol management after acute cardiovascular events (screening rates)
4. Antidepressant medication management (Acute Phase and Continuation Phase)
5. Controlling High Blood Pressure

All data will be submitted by June 15, 2011, by providing HCA access to NCQA's Interactive Data Submission System (IDSS). Notification of access shall be submitted to:
